"VACCINATION

A Curse and a Menace to Personal Liberty"

In the preface of his great work, with the above stated title, Dr. James M. Peebles, A. M., M. D., Ph. D., has this to say:

"For the past thirty years I have made a practical study of the workings of vaccination, in the various countries of the globe. I have personally investigated it in Trebizonde, Asiatic Turkey, while there holding a consular appointment under General Grant; in South Africa; in New Zealand and Australia; in British India and Ceylon; in Egypt, China, and the countries of Europe; in Mexico and the islands of the Pacific, not omitting our own United States.

"The vaccination-practice, pushed to the front on all occasions by mercenary doctors, and through political connivance, made compulsory by the state, has not only become the chief menace and gravest danger to the health of the rising generation, but likewise the crowning outrage upon the personal liberty of the American citizen.

"The time has come for scholarly men, for cultured, independent physicians to speak out plainly against this baleful scourge—to take a brave stand for the right and defend it, though the bigot's fire be kindled, or the crimson cross again be built."

The Medico-Politician

By J. W. HODGE, M. D.

The political doctor is a poor doctor. He is more of a politician than a doctor; therefore, he is in politics.

If he were more of a doctor than a politician, he would be too busy with his profession to care anything about politics.

A doctor who is incompetent and unable to acquire a legitimate practice sufficient to yield him a livelihood, looks around for some avocation whereby he hopes to increase his income. It is this sort of doctor who seeks a salaried job on a health-board, whereby he can compel people to pay for his undesirable services.

Look over the bunch of political doctors in this city, (Niagara Falls) and see if the above statement is not true. What are the best doctors, the physicians, of this city doing? Are any of them in the employ of the health-board? Offer any of our good physicians a position on the health-board and see what he will say. You will find that these positions are filled by the poorest specimens to be found in the medical profession.

Judging from what we have seen of the doctors who are running the health-board affairs of this city, their chief qualifications seem to be ignorance of municipal sanitation and hygiene, gall, arrogance, inconsistency, incompetency, and asinine stupidity of the rankest sort.—

Niagara Falls, N. Y.

NIAGARA FALLS, N. Y.

NOVEMBER 9, 1914.

WILBUR GLENN VOLIVA,
Head of the Church of Zion,
and General Overseer of ZION CITY.

My Dear Sir:

I have just finished reading the splendid special edition of a paper from your city, which contains many pictures showing the fatal and cruel ravages of the vaccine practice upon innocent little children and adult persons.

I write to congratulate you on this fine illustrated warning to parents against vaccination, the curse of childhood and the crime of the century.

I honor and admire your courage in combating the mercenary gang of medical politicians who are endeavoring to increase their own revenue by poisoning your people's blood and scarring their bodies for life.

The mercenary, dollar-hungry medico-political butchers and blood-poisoners who wield the deadly vaccine lancet against little children would gladly rape the blood of every pure child in ZION CITY in order to put shekels into their own pockets.

Parents and guardians of children should repel the assaults of the vaccinator just as they repel an attack of a highway man or a burglar.

Vaccination is an assault upon the body, health, and life of the person vaccinated, and should be resisted even unto death.

Through the effects of this organized scheme of compulsory racial blood-poisoning at the hands of mercenary medical pirates, the blood of nations has been systematically debauched and polluted with loathsome and fatal diseases. Tuberculosis, cancer, scrofula, leprosy, syphilis, eczema, and a score of other loathsome and fatal diseases have been forcibly imparted to healthy people.

I hope the people of ZION CITY will, under your able leadership, arise in their might and crush the hydra-headed Jennerian monster and drive it forever from your clean and wholesome city.

Wishing you every success in your warfare against the medical baby-slayers and blood-poisoners, I am

Very truly yours for freedom from medical tyranny and compulsory disease, professionally administered,

"J. W. HODGE," M. D.

Which Assertion is True?

The avowed purpose of the vaccinationist is to *inflict* disease under the pretext of *preventing* disease.

The vaccinator tells his credulous dupes that vaccination is a sure preventive of smallpox. In the very next breath he tells them that vaccination "imparts a mild attack of smallpox to the successfully vaccinated." Such are the glaring inconsistencies and self-contradictions of the promoters of and apologists for this empirical art of heathenish and superstitious origin.

Every vaccine operation is conceded to be a blind experiment upon the vaccinated subject. The medical guesser has no means of ascertaining either the nature or the constituency of the vaccine poison he uses; he cannot guarantee that it will not result in maiming or death. He takes the fee for his dirty work while, his deluded victim takes the chances of danger and disaster incident to the disease-imparting, health-blighting operation.—J. W. Hodge, M. D., Niagara Falls, N. Y.

The Real Black Hand Is the Hand that Wields the Vaccine Lancet Against the Helpless Child

"The real poison-needle is the vaccine point."—Life.

The vaccinators should be appropriately labeled "*separators*" in conformity with the fact that their specialty is to separate the people from their money.

For tricks that are dark and ways that are devious, the vaccinators have no equal.

HISTORY AND OTHERWISE

"Twas seven years in August, see,
Our Lace Factory was sold
To Marshall Field & Company,
For a small sum we're told.

They promised then most faithfully
The leases to maintain,
And said a clean community
This city would remain.

They'd rather have in their employ
Clean, honest, Christian folk
Than those who would so oft annoy
With chew, or drink, or smoke.

O they were very saintly then,
But that was long ago.
It sometimes does take time, for men
To let their colors show.

Things went quite smooth these seven years
With no decided change.
The small-pox scare, it then appears
Did peace somewhat derange.

Uneasiness seemed hovering
Within the four brick walls,
The Company uncovering
Such rules that caused withdrawals,

The manager,—O by the way
His name is Mr. Finn,—
On vaccination had much to say,
You should have heard him begin.

The question, pro and con discussed,
And tried to make it plain,
But Zion people kept their trust
His efforts were in vain.

"Will you not give in," Finn begged once more
"The doctor is upstairs,
'Tis the only safe way in a score,
"And does more good than prayers."

But yet his pleading did not work,
He felt deeply chagrined,
And acted like an angry Turk
That had been disciplined.

"I'll fix you now," said Finn with cheer,
"Our motto now will read,
'No vaccination—No work here,'
And please take leave with speed."

The ZION people did not sob
But stood their ground like rock,
And would not for a little job
Their Heavenly Father shock.

They marched out saying as they went,
"Upon our God we'll call,
For He has always "manna" sent
To those who trust for all."

Shame! shame! ten thousand times we shame
You people who once stood
For Zion's God,—that Blessed Name—
We don't see how you could.

God's been so good to you and yours,
How could you disobey
His Precious Word always assures,
"He's just the same to-day."

'Tis eas'ly seen why Finn obeyed,
No task, would he refuse,
And all because he was afraid
That big fat job he'd lose.

Well now as far as Finn's concerned—
We know this to be square,
He's hoarding all the "mon" he's earned
To be a millionaire.

On earth your wealth might name you rich
In houses or in lands.
In heav'n you'd hardly own a niche,
So small your record stands.

Are you a Christian Mr. Finn?
Do you believe in prayer?
Is your life all it might have been
Had sin not entered there?

Again we warn you Mr. Finn,
Why don't you set the pace
Take all your gang of vice and sin
To some more suited place.

Yet should you wish to right your wrongs
And turn to God and Zion.
We'd welcome you with Christian songs,
And sing, "The Ninety and Nine."

MRS. EDW. F. KLAMMER.

COME HEAR VOLIVA

Wilbur Glenn Voliva, General Overseer of the Christian Catholic Apostolic Church in Zion, will deliver a very important address, at 2.30 p. m., in Shiloh Tabernacle, date to be announced later.

It will be the greatest meeting ever held in Zion City.

All Welcome Free-Will Offerings Only Received

All Seats Free "Christ is All, and in All."

P. S. No Meetings Tomorrow. No meetings until further notice. Watch the "Theocrat" for full announcement when meetings are resumed.

COME HEAR VOLIVA!

Wilbur Glenn Voliva, General Overseer of the Christian Catholic Apostolic Church in Zion, will deliver a very important address, at 2.30 p. m., in Shiloh Tabernacle, date to be announced later.

It will be the Greatest Meeting ever held in Zion City.

All Welcome Free-Will Offerings Only Received

All Seats Free "Christ is All, and in All."

P. S. No Meetings Tomorrow. No meetings until further notice. Watch the "Theocrat" for full announcement when meetings are resumed.

NO MEETINGS

There will be no meetings tomorrow, Lord's Day, November 15th, 1914. All ZION people should read and study the Bible and pray in their homes.

In view of the fact that there are no meetings, all officers, members and friends should put their tithes and offerings into the various boxes in the different institutions.

ZION HANDKERCHIEF FACTORY

Fifteen additional machines have been ordered, and workmen have already begun to enlarge the factory; and we expect, in a very short time, to be able to employ at least forty additional workers.

ZION OFFICE SUPPLY

ZION OFFICE SUPPLY is now nicely located in the Administration Building Auditorium.

The printing plant, the shipping room, the offices, and the other departments, are now all under one roof; and where the manager, from his office, can exercise proper supervision over all the operations.

Southern End of New Chicago to Milwaukee Road now complete as far as Highland Park.

The improvements of Sheridan Road from the Chicago end, has just been completed as far as Dean Avenue, Highland Park. The Sheridan Road Improvement Association is pushing this work as quickly as possible, and before long they expect to have a continuous boulevard all the way from Chicago to Milwaukee.

A section of this road, which has now reached Highland Park, was opened to the public on October 25th, and is to be an excellent roadway for all kinds of traffic. It is expected that motorists will be able to drive along Sheridan Road from Chicago to Milwaukee before long. The northern end of this road is now being pushed between Racine and Kenosha, thus leaving a strip between ZION CITY and Kenosha, which is probably the worst part of the route.

By next summer, no doubt, the Sheridan Road driveway will be completed; so that motorists will be saved a good deal of jarring and jolting and having to plow through the mud and sand, especially between ZION CITY and Winthrop Harbor.

Let every ZION family and member in ZION CITY subscribe for THE THEOCRAT. Its columns give mention of local happenings; also a weekly review of the leading events of the world in condensed form, so you can get them at a glance without wading through a lot of newspaper muck. These news paragraphs are written in style that would be acceptable with any of the leading magazines.

Do you think THE THEOCRAT is serving a purpose?

Then show your appreciation and loyalty by subscribing.
